SUMMARY

React.js Developer with 4+ years of experience building scalable, high-performance web applications. Expertise in modern JavaScript, Next.js, and state management using Redux. Proven ability to optimize performance, improve user experience, and deliver production-ready solutions. Passionate about clean code, reusable components, and modern UI development.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind
- **State Management:** Redux, Context API
- **Tools:** Git, GitHub, Filezilla, Webflow, WordPress
- **Other:** Electron.js
- **AI Tools:** Cursor, Codex

WORK EXPERIENCE

Web Developer, Chittlesoft Solutions Private Limited.

March 2024– Present

- Developed scalable and responsive UI components based on client requirements
- Built and maintained web applications using React.js, React Native, Webflow, and WordPress
- Integrated REST APIs and managed application state using Redux
- Handled client communication independently and delivered feature enhancements
- Created responsive HTML email templates and marketing assets

React Developer, Broadview Innovations

Oct 2022 – Feb 2024

- Developed reusable dashboard components used across 5+ internal teams
- Optimized API calls, reducing application load time by ~20%
- Implemented Redux Thunk for efficient asynchronous state management
- Collaborated with backend and UI/UX teams to deliver high-performance applications

Front End Developer, 3 Embed Software Technologies Pvt. Ltd

Mar 2022 – Jul 2022

- Built responsive landing pages using React, HTML, and CSS
- Integrated third-party APIs and payment gateways
- Resolved production issues, improving application stability and performance
- Worked in Agile teams to deliver projects on time

PROJECTS

Arofines ([link](#))

- Developed a fully responsive and dynamic website for AroFines, showcasing products and services with a user-friendly interface.

- Implemented Next.js for building interactive and reusable components, ensuring a smooth user experience.
- Used modern JavaScript features for enhancing functionality and performance, improving load times and responsiveness.

Prap 27 ([link](#))

- Developed responsive UI using React.js and Redux for dynamic state handling.
- Collaborating with designers and backend developers to implement front-end components and functionality.
- Implementing state management using Redux or other similar frameworks.
- Integrated RESTful APIs and implemented reusable components.
- Ensuring cross-browser compatibility and optimizing application performance.
- Mentored and trained 2 junior developers during the project lifecycle.

CloudRent – Online Equipment Rental Platfor ([link](#))

- Developed and launched CloudRent, an intuitive platform for renting and borrowing equipment.
- Utilized React JS for the front-end and Node.js for the back-end.
- Integrated secure payment processing and implemented an efficient search and booking system.
- Implemented gamification features, resulting in a 15% increase in user engagement.
- Received positive feedback for the platform's intuitive design and seamless rental experience.
- Technologies/Tools: React JS, Node.js, Express.js, MongoDB, HTML/CSS, JavaScript, AWS, Git

Point-of-Sale (POS) – Offline Billing Desktop Application

- This is the Point of sale(selling) desktop application. Collaborating with designers and backend developers to implement front-end components and functionality.
- Built offline billing desktop application using Electron.js
- Applied advanced React and JavaScript concepts to design and develop the desktop application

EDUCATION

Bachelor of Computer Applications (BCA)

Parul University | Expected 2026

Software developer courses

Navgurukul | 2021–2022
